

2nd Virtual Global Conclave on

Materials Science & Engineering

Theme:

"Transforming Materials: New Discoveries, Smart Engineering"

Date & Venue:

March 17, 2027 Virtually via Zoom Platform

Welcome Message

Welcome to G-Mats 2027!

Join us on March 17, 2027, via Zoom, for the 2nd Virtual Global Conclave on Materials Science & Engineering. Connect with global researchers, scientists, academicians, and industry experts to share innovative research, exchange ideas, and explore the latest advancements in materials science.

Be part of the global scientific community and help shape the future of materials science and engineering. We look forward to welcoming you!

Highlights

- Materials Science and Engineering
- Materials Science and Applications
- Nanotechnology
- Engineering
- 3D Printing and Additive Manufacturing
- Electrical, Optical, and Magnetic Materials
- Optoelectronics, Photonics and Magnetic Materials
- Emerging Trends in Materials Science
- Materials for Energy and Environmental Sustainability
- Nanoscience and Technology
- Polymer Materials
- Renewable Materials
- 3D Materials

- Advanced Energy Materials
- Automation, Control and Information Technology
- Batteries and Solid Electrolyte Materials
- Material Engineering
- Mining and Metallurgy
- Nanomaterials and Nanocomposites
- Carbon Nanomaterials
- Nano Medicine
- Plastics and Recycling Materials
- Biomaterials and Medical Devices
- Computational Modelling of Metals and Materials
- Crystallization
- Electrochemistry and Electrochemical Engineering
- Microelectrodes
- Spectro Electrochemistry
- Advanced Nanomaterials
- Materials Chemistry
- Nanoengineering and its Applications
- Nano Engineering and its Application
- Nanomaterials and Nanotechnology
- Ceramics and Magnetic Materials
- Semiconductors: Fundamentals to Emerging Applications
- Chemistry Materials
- Battery Manufacturing, Recycling and Supply Chain

Our Mission

To connect the global materials science community, promote innovative research, encourage scientific collaboration, and inspire advancements in Materials Science & Engineering for a sustainable and technologically advanced future.

It is to create a valuable scientific platform where people can share knowledge, build connections, and contribute to future innovations in materials science.

Important Dates

Conference Date	March 17, 2027
Abstract Submission Opens	September 29, 2026
Registration Opens	September 30, 2026
Final Abstract Submission	February 28, 2027
Final Registration	March 01, 2027

Registration fee Details

Category	Fee
Speaker Slot	£299
Poster Slot	£299
Delegate Slot	£349

What’s Included in Every Registration?

- E-Certification
- Book of Abstract
- Access to All Sessions
- Recorded Video Presentation
- Live Question & Answer Session

BOOKMARK YOUR DATES

March 17, 2027

We look forward to meeting you via Zoom Plarform.
An enriching knowledge experience awaits your presence.
Let’s make memories together to be cherished later.
